

# Dave Davenport

Connecting Business and Technology

## About Dave

**D**ave is a competitive guy who believes any type of race is fun. His eclectic personality is what engages friends, family and business partners alike.

Dave loves to race sailboats, play golf and travel to new, exciting places with his family. If they can catch a soccer match and have good glass of wine or a cold beer, than life is that much sweeter.

Entertaining a group of people gives Dave his biggest thrills. That's why you'll see him fire up the grill at the MotherG office, get a game bags going and share some of his favorite stories. The MotherG staff even lets Dave practice his Dad Jokes for the MotherG weekly newsletter.

That speaks exactly to the environment Dave believe drives successful companies. Collaboration, honesty and a bit of quirkiness are the core values Dave uses to guide his daily interactions.

In business, Dave speaks often that company culture will attract the brightest, hardest working and happiest employees. In turn, that will benefit clients the most because everyone is invested in eachother's success.

Before MotherG, Dave ran sales for TransTech IT Staffing and marketing for BancTec. Dave graduated with a MIS degree from the University of South Florida, and an MBA from the University of Chicago.

## Fun Facts

- MotherG opened its loving arms in 2006
- Dave's wife, Mary, is the CEO of TransTech IT Staffing
- Dave has two children, Emily and Charlie
- Would love to be an Olympic Gold Medalist
- Attended the last four World Cup Tournaments
- Crossfit is important to Dave, but he won't talk your ear off about it

## About MotherG

MotherG is a managed IT service provider in the Chicagoland and Wisconsin markets.

Technology is how people view us, but we're as much business consultants as IT consultants.

When you partner with MotherG, we analyze your business. That means finding the issues of today, the challenges of tomorrow and how to streamline your needs to allow you to innovate for the future.

We're there 24/7 when you need us, but our skilled team is looking forward to help you stay ahead of the competition.

It's like turning on the lights. We're there consistently, we're reliable and we give the clarity to see what's ahead.

That's Light Switch Technology by MotherG.
